Advaiya Solutions

Prerequisites and setup steps

- At minimum, a computer with 2-cores and 4GB RAM running Windows 7 / Windows Server 2008 R2, or later
- **Display:** At least 1440x900 or 1600x900 (16:9) recommended.
- **Internet connectivity:** You must have the ability to connect to the Internet outside your organization
- **Microsoft Power BI Desktop installed:** you should have downloaded and installed Power BI Desktop from <https://go.microsoft.com/fwlink/?LinkId=521662>. Optionally, you can also install Power BI Desktop from the Power BI Desktop Install folder on the flash drive that will be provided today.
- Microsoft Power BI Desktop requires Internet Explorer 9 or later.
- **Signup for Power BI:** Go to <http://aka.ms/pbidiadtraining> and sign up for Power BI with a business email address. If you cannot sign up for Power BI, let the instructor know.
- If you have an existing account, please go to <http://app.powerbi.com> and **Sign in** using your **Power BI account**

Connecting to Wireless

- Make sure your wireless adapter is set to dynamically obtain an IP address
- Connect to the wireless network **MSFTGUEST**
- Open a browser and navigate to a web site to be redirected to the Captive Portal
- Click on Event Attendee Code and enter the access code:
msevent930ds

Digital workplace solutions

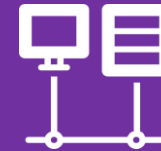

Business analytics

Transform data into insight and action

Cloud adoption

Simplify the access to data, apps, and services

Productivity and business automation

Synergize, organize and innovate with integrated applications

Project portfolio management

Do the right projects, do them right

Digital presence

Power your marketing and presence with right insights, strategy, and execution

Business analytics

Transform data into insight and action

Helping you get the right data, make sense of it, and act on it.

Meet your specific information needs and make better decisions with Power BI solutions for visualization and aggregation of data from across multiple sources

Get started today with Advaiya, Microsoft Gold Partner for data analytics to understand your data better.

Advaiya BI: Highlights

BI Next

Future ready approach with consideration of AI/ML, deep automation and organization enablement.

Purpose Led

Use of our business discovery framework help us uncover business needs and challenges, identify gaps and build a phase-based approach to unleash power of Next Gen BI.

Unique Combination of Skills

Our team of business analysts, data analysts, data scientists, architects and designers work collaboratively to deliver BI initiatives to large enterprises and mid-sized businesses.

Our value proposition

Comprehensive roadmap
for enterprise information
landscape

Standardized processes
and pre-defined checklists

Deep industry specific
experience

Business process
understanding

Implement the best data
management practices

Use of the latest tools &
technologies

Gold Data Analytics

Our engagement approach

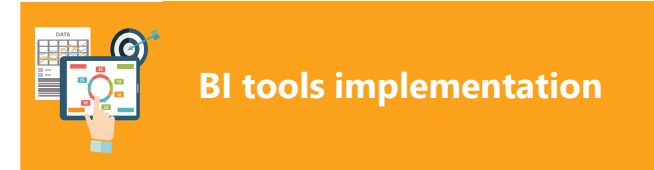

Information needs fulfilment (Discovery)

- Understand business challenges related to BI including visibility, control, and decision making
- Check current data infrastructure – data sources, data stores, data integration
- Identify data gaps and integration areas

Data discovery and aggregation

- Identify and connect to data sources
- Create process and data stores for capturing missing data
- Building data models including external data
- Data integration and building a common data taxonomy
- Provide a centralized data store which is secure and accessed organization wide / department-level based on roles

BI tools implementation

- Use of right set of tools and technologies to build and share reports and dashboards
- Availability of data sets and models to create self-service reports
- Actionable insights and predictive analytics

Agenda *(times are approximate and will be fluid with the class)*

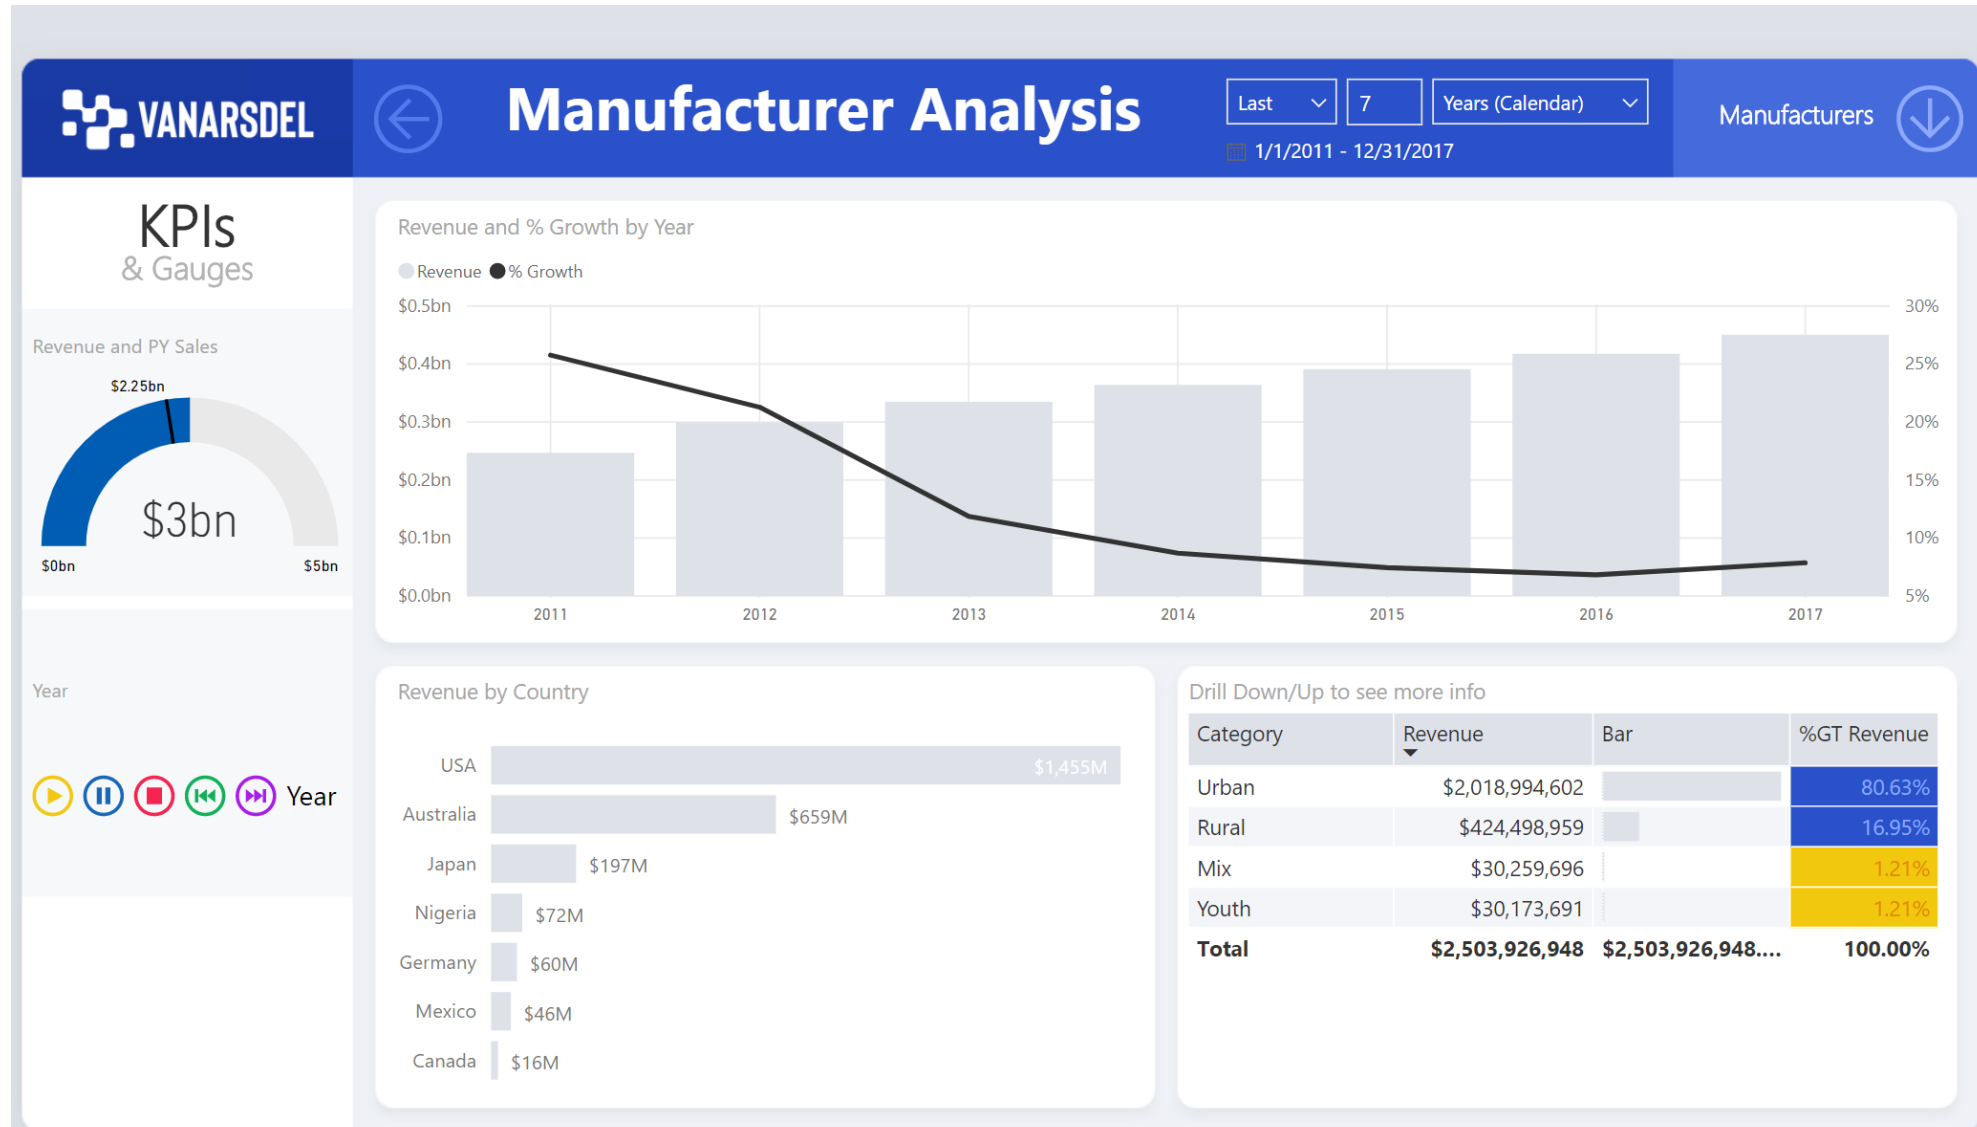

Morning

- 09:00 AM – 09:30 AM – Introduction to Power BI and Power BI Desktop overview
- 09:30 AM – 1:00 PM – Power BI Desktop – Lab
- 1:00 PM – 1:30 PM – Lunch and demos

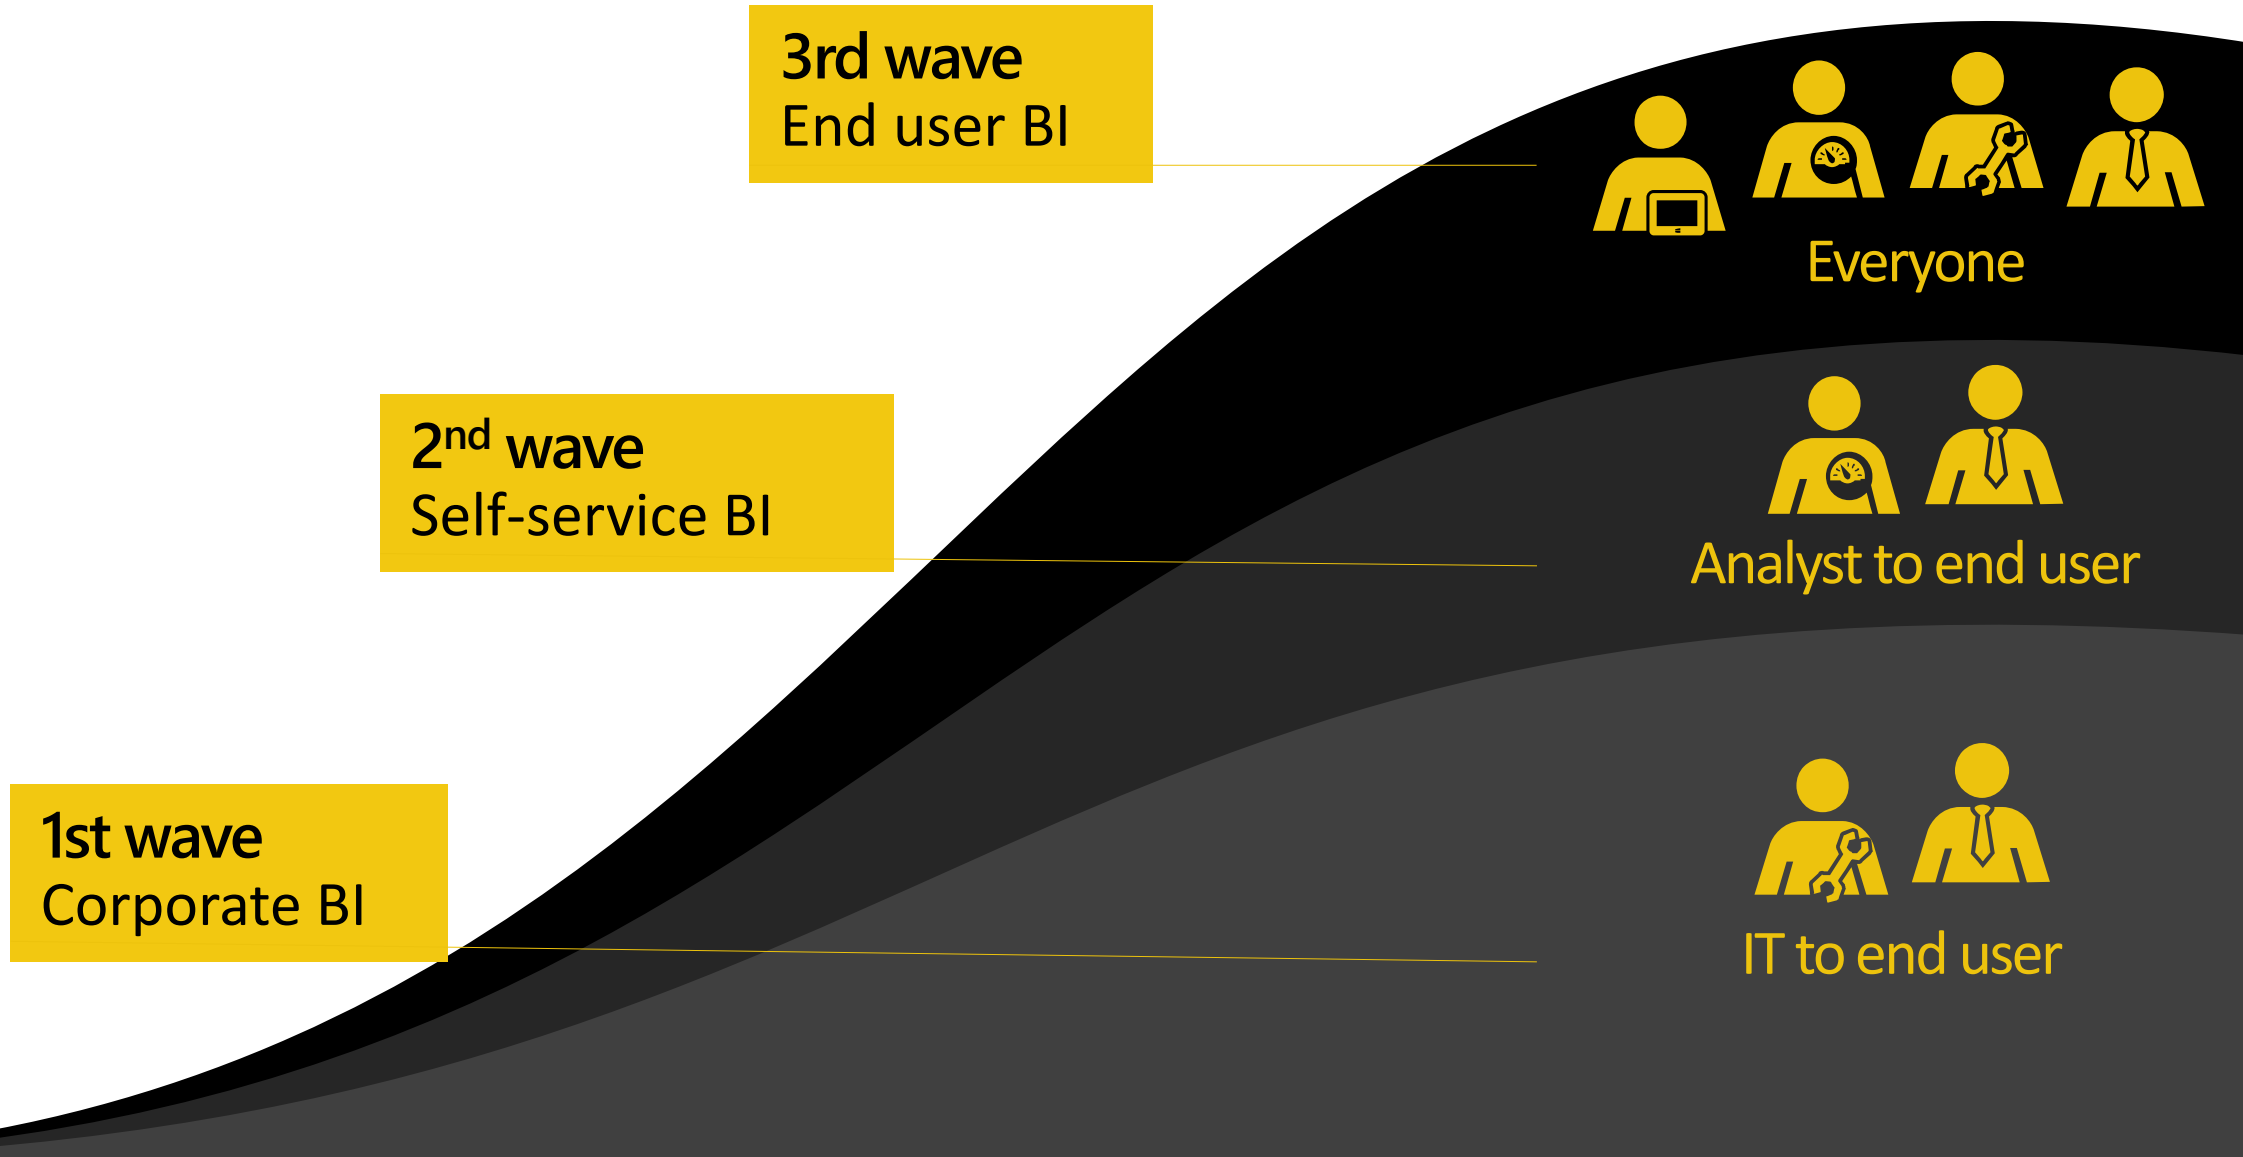

Afternoon

- 1:30 PM – 1:45 PM – Power BI Service overview
- 01:45 PM – 02:30 PM – Power BI service – Lab
- 02:30 PM – 04:30 PM – Bring your own data and build dashboards
- 04:30 PM – 05:00 PM – Q&A

Power BI Desktop files

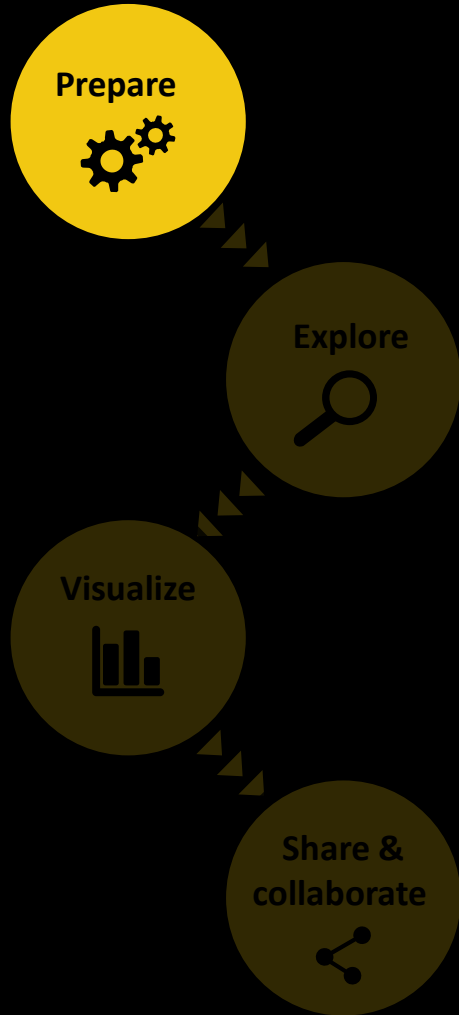

Data from files, databases, Azure, and other sources

- Data from services
 - SaaS services that you already use
 - Growing number of supported SaaS solutions
- Data from your organization
 - Content published by others in your org (organizational content packs)
- Big data and more
 - Azure data services, e.g. HDI, ASA, AML etc.
 - On-premises data sources, e.g. SSAS
- Data from files
 - Import data from Text, CSV, Excel and Power BI Desktop files

Access all your DATA

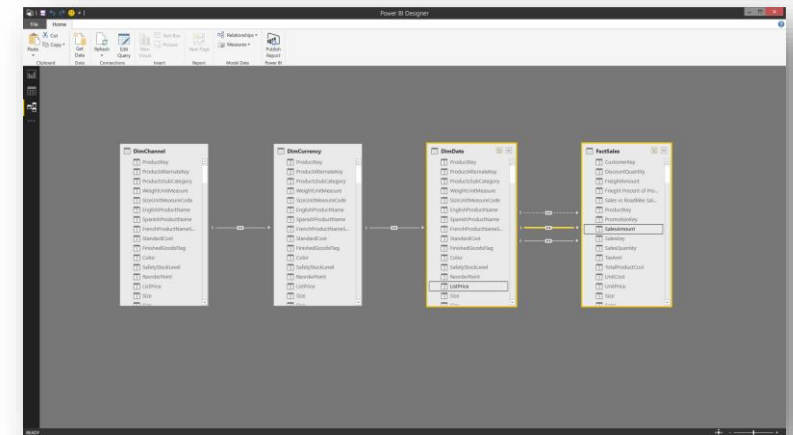

Clean and mash-up your **DATA**

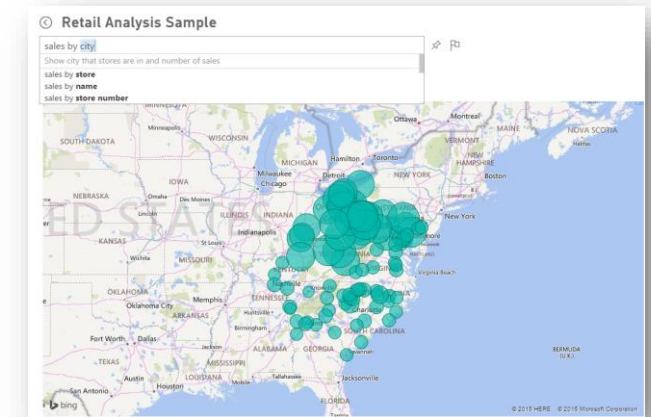

- Consolidate data from a broad range of sources
 - Merge or append queries to combine data from multiple queries into a single query
- Transform data to fit your needs using intuitive UI
 - Select data for inclusion
 - Cleanse data and remove errors
- Define calculations to generate new fields for use in reports
- Develop advanced analytics using a combination of measures and relationships
 - Uncover correlations, highlight exceptions and understand business outcomes

	ProductID	Date	Zip	Units	Revenue	Country
1	833	1/15/1999	76108	1	797.9475	United States
2	837	1/15/1999	33436	1	813.6975	United States

4	838	1/15/1999	29526	1	934.4475	United States
5	838	1/15/1999	33584	1	944.9475	United States
6	838	1/15/1999	33947	1	944.9475	United States

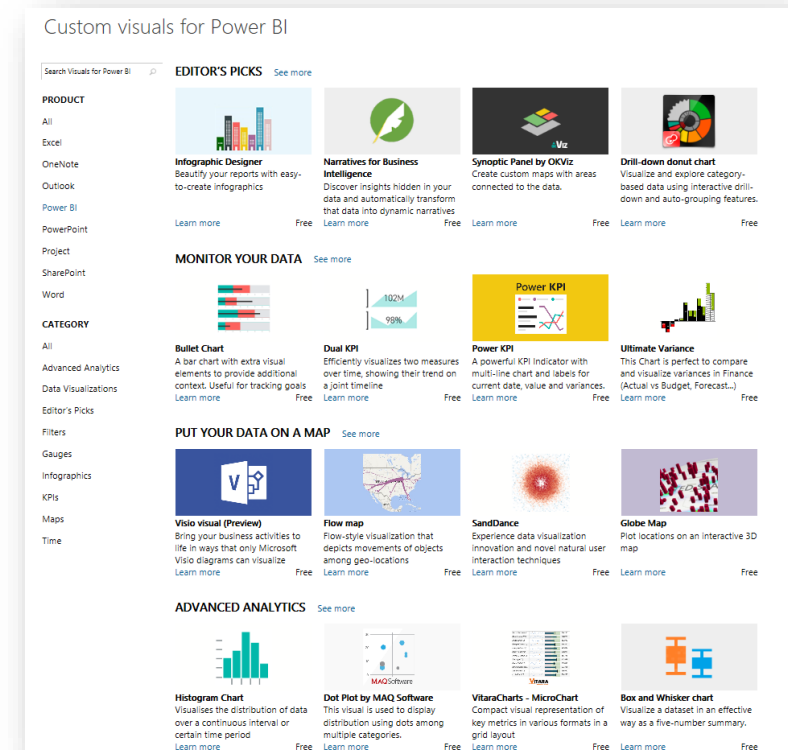

Explore your DATA

- Explore data in a variety of ways and across multiple visualizations using drag and drop canvas
- Dig deeper into your reports
 - Drill-down in your hierarchical data
 - Filter, sort, hover over and highlight data
- Leverage Quick Insights to find insights in your data
- Ask questions of your data in natural language with Q&A
 - Type questions in plain language
 - Q&A intelligently filters, sorts, aggregates, groups and displays data based on the question

Visualize your DATA

- Visualize data in a variety of ways
- Growing number of visualization types
 - Donuts, basic area, waterfall, filled maps, tree maps, funnel, gauges combo charts and more
 - Custom visuals available from Power BI Visuals Gallery (<https://store.office.com/en-us/appshome.aspx?productgroup=PowerBI>)
 - Tools to develop, test, package new custom visuals
- Visualizations on report page are connected – select value in one visualization to change other visualizations
- Full screen pop out mode for report visuals to show additional details

Bring your story to life with **DATA**

Women's Health Risk Assessment
[Visit Competition page for more details](#)

\$5,000 prizes in total
Ended 10/1/2016, 7:59:59 AM (GMT Daylight Time)

87.713%
Winner Score

Summary
Based on the World Health Organization (WHO) report in 2011, about 820,000 women and men aged 15-24 were newly infected with HIV in developing countries. Among these newly infected, more than 60% were women.

25,063
Views

Developing countries face serious reproductive health problems such as sexually transmitted infections (STIs), unintended pregnancies, and complications from childbirth. **Emphasize prevention and provision of information about STIs and other reproductive tract infections (RTIs) was listed as one of the top priorities for policymakers, researchers, and health care providers**

493
Participants

To help achieve the goal of improving women's reproductive health outcomes in underdeveloped regions, **this competition calls for optimized machine learning solutions so that a patient can be accurately categorized into different health risk segments and subgroups.**

Find industry solutions in the Partner Showcase

The screenshot displays the Microsoft Power BI Partner Showcase website. The browser's address bar shows the URL `powerbi.microsoft.com/en-us/partner-showcase`. The page features a yellow header with navigation links for Microsoft, Power BI, Products, Solutions, Partners, and Learn, along with 'Sign in' and 'Sign up free' options. The main heading reads 'See what our partners are doing with Power BI', followed by a subtext explaining the purpose of the showcase. Below this, a section titled 'World-class BI solutions, customized for your business' presents six partner cards: Avanade (Digital Workplace Insights), Bismart (City Call Center), Dell (Education Data Management), Hitachi Solutions (Manufacturing IoT with Dynamics CRM Field Service Integration), KPMG (Online Decision Engines for Healthcare), and Karabina (Business Technology Solutions). A search bar and three filter dropdowns (All Countries, All Industries, All Departments) are positioned below the partner cards. The footer includes logos and descriptions for AAEON Technology Inc. (Intelligent Vending) and AIS (Enterprise Social Insights), with a 'Request demo' button in the bottom right corner.

What is the Power BI Community?

The Power BI Community is a place where customers and people who are passionate about Power BI can connect, learn, and discuss business intelligence with experts and peers

Who are members of the Power BI Community?

Registration on the Power BI Community is completely free and open to everyone. The community is made up of a mix of:

- Microsoft Employees,
- Product Engineers
- IT Pros/Developers
- Educators/students
- Influencers and industry leaders
- Business professionals and more!

What can I get out of the Power BI Community?

Connect with Power BI engineers and Microsoft employees.

Gain expert insight and feedback on a topic or provide suggestions on improving Power BI.

Member-exclusive events, such as the Power BI Ask Microsoft Anything (AMA) hour

Members-only resources on how to use Power BI.

Win prizes and earn exclusive perks by participating in Community Block Parties and Contests

How do I get started?

Register as a member the Power BI Community
(<https://community.powerbi.com/>)

Edit and customize your profile.

Use the search bar to find and engage on relevant boards.
